PROFILE SUMMARY

Engineering graduate with a strong foundation in Java, data structures, and DBMS. Developed “Smart Garage,” a digital platform for vehicle service and management using Flutter, Spring Boot, and PostgreSQL. Interested in building scalable backend systems and contributing to high-impact software development roles.

EDUCATION

Narayana Engineering College, Nellore
B.Tech in Computer Science Engineering

2022 – 2026
CGPA: 8.2 / 10

SKILLS

Languages: Java, SQL, C

Frameworks: Spring Boot

Databases: PostgreSQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code, Eclipse

Key Achievements

- Qualified National Means-cum-Merit Scholarship (NMMS) examination
- Solved 100+ coding problems across platforms like LeetCode and HackerRank

EXPERIENCE

Java Full Stack Developer Intern
Edu Skills Academy (Virtual Internship)

Apr 2025 – Jun 2025

- Designed and developed RESTful APIs using Java and Spring Boot
- Improved backend performance by optimizing database queries
- Participated in Agile development cycles including design, implementation, and testing

PROJECTS

Smart Garage – Digital Platform for Vehicle Service and Management Flutter, Spring Boot, PostgreSQL

- Developed a full-stack mobile application for vehicle service booking and management
- Built RESTful APIs using Spring Boot for authentication, booking, and service scheduling
- Designed PostgreSQL database schema for users, bookings, and services
- Implemented location-based filtering and real-time booking updates
- Developed responsive mobile UI using Flutter with modular architecture

Traffic Signal Detection Bot

YOLOv8, Roboflow, Google Colab, Telegram Bot

- Developed an AI-based system to detect traffic signal symbols using YOLOv8 object detection model
- Trained the model using a publicly available dataset from Roboflow in Google Colab
- Integrated the trained model with a Telegram bot to process user images and return detection results
- Applied preprocessing and tuning techniques to improve model performance

CERTIFICATIONS

HackerRank – Java (Basic)

SoftSkills – NPTEL

Infosys – Web Development with MERN Stack
